DIMPAL

PYTHON FULLSTACK DEVELOPER

+91 9113801571
dimpalpojaryckc@gmail.com
https://github.com/dimpalpojaryckc-afk

As a motivated graduate, I combine strong computer science fundamentals with versatile full-stack development skills, specializing in Python. I am skilled at translating complex user requirements and business logic into functional, scalable, and user-friendly web applications, from the back-end API to the front-end interface. I am eager to contribute high-quality code and collaborate effectively to drive project success.

PROFESSIONAL EXPERIENCE

Uipath RPA Developer Virtual Internship

AICTE-Eduskill Internship Portal

- Completed a virtual internship program, gaining certification and foundational skills in Robotic Process Automation (RPA) development using Uipath.

The Garden Gallery (Academic Project)

Developer Jan 2024 – Apr 2024

- Built a simple website, the "Online Plant Selling Management System," as a social service to help users easily order plants for doorstep delivery.
- Skills: Full-stack development, database management, and UI/UX design (Figma/Adobe XD).

Payroll System (Academic Project)

Full-Stack Developer May 2025 – Aug2025

- Description: Developed a web-based payroll management system using Flask, Python, HTML, JavaScript, and SQLite.
- Objective: Built to streamline payroll processing, calculate salaries, and generate payslips for small businesses.
- Functionality: Calculates gross/net salary based on employee inputs (allowances, deductions), stores data in a database, and generates downloadable PDF payslips.
- Skills Applied: Full-stack development (Flask), frontend (HTML/CSS/JS), database management (SQLite), and PDF generation.

EDUCATION

Master of Computer Application (MCA) , 8 CGPA

Srinivas Institute of Technology

Bachelor of Computer Application (BCA) , 9 CGPA

Srinivas University
